

Technology @ Ocean Academy High School

Ocean Academy understands the need to prepare students with 21st century skill and the rapid changing worlds of technology. The use of technology in school can serve as a valuable tool in education. Students can purchase a device from the school or can choose to bring a personally-owned device (tablet or laptop) to school for the purpose of learning.

What devices can students bring to school?

Students are allowed to bring a tablet with keyboard or laptop to school. The tablet or laptop must follow particular device specifications.

Device Specification

1.  Wifi - Device must support Wifi connection
2.  Battery Life- Device must last at least 3 hours of battery life without charge.
3.  Memory or Ram- Device must have a minimum of 2 GB for a smooth operation.
4.  Operating System- Device must have an android, mac or windows 7, 8, 10.
5.  Hardware Features- Must have at least 1 USB port for transfer of files.

Software and Apps

Device must have software or apps that allow for:

- Internet browsing
- Word processing
- Spreadsheet processing
- PowerPoint processing
- Active antivirus software

Students will have a personal ocean academy email account.

Students will have access to Google drive ocean academy electronic resources.

**IT services can assist with any missing software presented above.*

Student responsibility

- ✓ Student must sign the *Technology student agreement* with their parent/guardian before bringing their own device to school.
